# Development of the number of students

# The strategy of FH Campus Wien

- ❖ Innovation & Entrepreneurship are directly anchored in the strategy of FH Campus Wien
  - The FH Campus Wien institutionalized the Entrepreneurship, Innovation & Career Center (EICC)
- ❖ Interdisciplinarity is a key strength and benefit of FH Campus Wien
- ❖ Internationalization is important at FH Campus Wien – this is also part of the overall strategy
  - The FH Campus Wien sees strong (international) partnerships as a factor for success
- ❖ The business unit Academic Institutional Development ensures that new solutions will be incorporated in the curricula of the study programs
- ❖ The development and rollout of micro-credentials will be the focus of FH Campus Wien

# Academic Institutional Development

We facilitate stakeholders of the FH Campus Wien by:

- Transparently communicating standards and guidelines for curricula development
- Providing tailor-made advice to the heads of degree programs/continuing higher education programs on the further development of study programs towards a future-oriented curriculum
- Optimizing coordination with AQ Austria and international quality assurance agencies
- Strengthening of future competencies such as innovation and entrepreneurial spirit in the curricula
- Conducting market analyses of future professional and thematic fields (demand, acceptance, coherence) as well as environment analyses of the University of Applied Sciences and its' departments

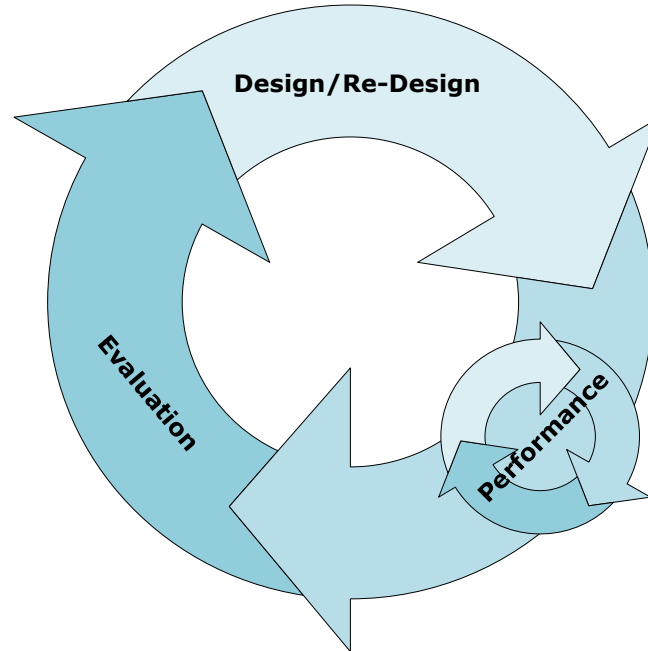

# Academic Institutional Development

1. Legal Foundations: European and Austrian regulations.
2. Internal Priorities: Competence orientation, modular structures, and learning outcomes.
3. Curriculum Life Cycle: Development, modification, and enhancement of study programs.
4. Stakeholders: Roles of Academic Development, International Office, and Teaching Support Center.
5. eCurriculum: Central platform for curriculum management and documentation.

The Curriculum Handbook serves as a comprehensive guide for the continuous improvement of educational programs, ensuring that they meet both academic and professional standards effectively.
